

RISING SUN COMMUNITY POWER CORP.

Muskoka SaniSolar Inc.

One Point Twenty One Gigawatts Inc.

2015 Ryde Co-Op Solar Proposal and Update

Rising Sun Community Power Corp.

- We have executed 2 contracts with the IESO for two 500kw (1MW) of Solar projects
- Security Payments have been made to The IESO and the projects are in the initial pre-construction phase
- Initial phase includes receiving approval to Proceed with construction from Government agencies
- Construction is planned to begin in late fall 2015 or early spring 2016.
- Ryde owns 15% of these projects, has no liability, and will not have to put up funds to build the Projects
- Once operational the Ryde Co-Op will receive \$4000/year per Project for 20 years

2015 – New Solar Project Opportunities

Muskoka SaniSolar Inc. and One Point Twenty One Gigawatts Inc.

- On September 30, 2015 a New window for IESO Small FIT Applications Opens
- Two new companies have been set up to Apply to receive contracts for new Solar Projects in Muskoka
- We have been very aggressive in securing new projects this spring/summer - there is a lot of competition
- This Presents a New Opportunity to make additional income at an important time for the Co-Op.
- The IESO FIT Rules relating to Co-Ops have changed and now require 51% Co-Op Equity Ownership
- The companies will be structured so Ryde has non-voting shares and has a passive role with no liability
- No Funds would be required by Ryde for the planning and construction of these new projects
- Working with the Ryde Co-Op significantly increases the chances of being offered a FIT contract.

Muskoka SaniSolar Inc. Project Portfolio

This company has been created to apply for solar projects on Landfill and Sanitation sites owned by the District of Muskoka. The District of Muskoka Council has approved all of our projects by resolution and we are currently in the final stages of negotiating leases with the district for these lands.

Potential Portfolio Size: 8 groundmount solar projects on five District owned properties

One Point Twenty One Gigawatts Inc. Project Portfolio

This company has been set up to apply for projects on Private property. We are currently in the process of requesting Municipal support for these projects (September 16) and are working with the property owners to obtain signed leases.

Potential Portfolio Size: 12 solar projects on 8 Properties in the Huntsville area

In total we hope to be submitting 20 applications to the IESO for 250kw and 500kw projects representing 6.5 MW (6500kw) of new solar projects in Muskoka. This is the equivalent of Thirteen 500 kw Projects. While we don't expect to receive contracts for every project, We feel that the number of projects submitted strongly increases our chances for success.

Proposal To Ryde Community Co-Op Inc.

If contracts are offered and if and when the projects are built and connected, Ryde would receive \$5000/year for 20 years for every 500kw of projects that are completed. This represents a potential income of \$67,500/yr. to the Ryde Co-Op for 20 years.

What is required from Co-Op Members to make this opportunity a reality:

We need at least 50 co-op members, who have owned land in Muskoka for more than two years to fill out an information sheet and sign 20 forms per person. Specifically we will require:

1. One copy of Member/Property Information sheet detailing the land that you own in Muskoka.
2. 20 copies of the IESO “Consent of Co-Op Member” form signed from each property owner (20 signatures per person on 20 separate pages)

Notes:

- If a Husband/Wife both own their land together, both are able to sign separate forms – ie. 40 forms per couple.
- If multiple properties have been owned for more than two years – choose one.
- If your property is owned by a company, you are not eligible to sign.

INSTRUCTIONS: CONSENT OF CO-OP MEMBER

Section 5.1(d)(i) of the FIT Rules, Version 4.0
